VS-CLIENT

Vingtor-Stentofon Intercom client for PC

-  **Automatic Volume**
-  **HD Voice**
-  **Automatic Gain Control**
-  **Active Noise Cancelling**
-  **Open Duplex**

DESCRIPTION

VS-Client is a Vingtor-Stentofon intercom client for PC. It is designed to be used as operator's intercom or office intercom. Intended users include: site security or control-room operator, payment booth operators (parking and toll-roads), operator handling incoming calls, and in-office standard calls. It provides Turbine-class Audio with echo cancellation and noise reduction.

Support for Vingtor-Stentofon Pulse

VS-Client works as Pulse intercom device

Turbine-class Audio

Includes acoustic echo cancellation and noise reduction, volume control and audio device selection

Lite mode and Full mode

Lite mode is non-intrusive minimalistic interface that can be easily integrated into existing systems. Full mode provides full keypad and additional call panels like call history and contacts

Full numeric keypad

Provides full call control with call transfer, hold/resume, mute

Call history

Shows a list of all incoming and outgoing calls.

Address book (Contacts)

Contacts can be created and added into contacts list. It also supports import and export

Favorites

A contact can be marked as favorite for doing a quick dial. Works also with keyboard shortcut

Function keys

Special function keys available during call (e.g. send DTMF – open/close door)

Call control with USB button

Calls can be initiated or accepted with an optional USB button. It also provides basic call control, like Push-to-talk / Duplex conversation mode switching

Multiple language support

English is the UI default language, but other languages can be provided
